

Concert Legacy 8

High-end Bookshelf Speakers

Concert Legacy 8 brings the Concert Legacy language into bookshelf form: real oak veneer, a 40 mm front baffle, and bead-blasted aluminium trim that accentuates the presence of a serious speaker against a matte surface.

A 2-way architecture with a custom Scan-Speak tweeter and the iconic SEAS LI8RN4X aluminium-magnesium midwoofer – the same driver lineage as the family.

Down-firing port in the plinth frees placement from rear-wall dependence. Pair it with the amplifier you choose.

Key Features

Passive with bi-wiring terminals –
Designed to remain the stable centre of a system that evolves.

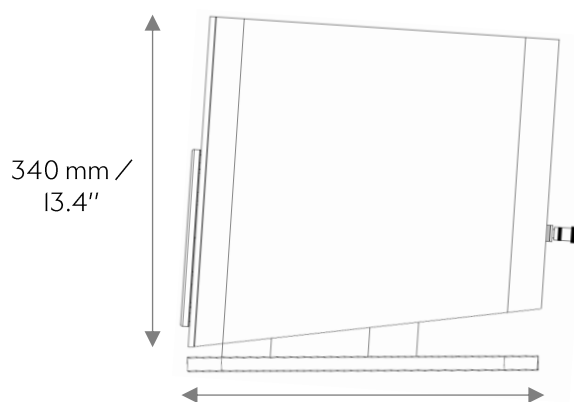

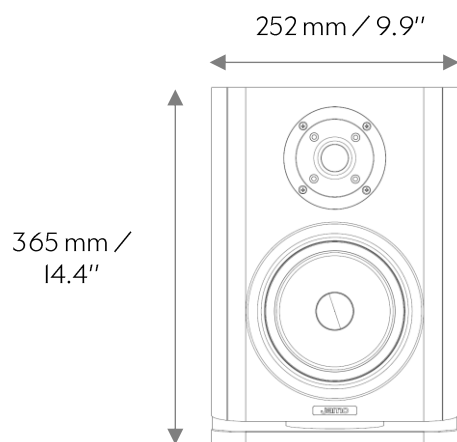

Scan-Speak tweeter, made-in-Denmark – Custom soft dome with a Legacy-specific faceplate, tuned at Scan-Speak's own facility.

Down-firing port in plinth –
Integrated port design eliminates rear-wall sensitivity without acoustic compromise.

Scandinavian driver heritage, made-in-Norway midrange –
SEAS midwoofer with Al/Mg cone and copper-accented phase plug deliver speed and neutrality.
